The Personal Brand Team Evaluation

Identify the Single Function Limiting Your Brand's Ability
to Generate Qualified Applications

Before You Start

If you're over \$50K/month and still

- writing scripts yourself,
- reviewing every edit,
- posting and hoping, and unsure which video drove your last 5 applications

this is not a creativity issue.

This is a structural ownership issue.

I was on a call with a founder doing \$80K/month.

He had 120K subscribers.

He couldn't tell me which video generated his last 10 clients.

That's not a content problem.

That's a systems problem.

This evaluation identifies the single function you are still personally owning — and that ownership is suppressing leverage every month.

How to Score

Score	What It Means
0	Fully owned by you. No accountability exists outside of you.
1	Shared or unclear ownership. Accountability is fuzzy.
2	Clearly owned by someone with full outcome accountability.

Function 1 — CEO of Video (Strategy Ownership)

Is there one person accountable for:	Score
Topic sequencing aligned to business goals?	
Long-form strategy tied to applications (not views)?	
Short-form extraction from long-form (not separate creation)?	
Can you prove which 3 videos drove the most applications in the last 90 days?	
Total Score	

Function 2 — Distribution (Platform Leverage)

Platform leverage	Score
Is YouTube treated as a compounding asset (SEO, metadata, structured descriptions)?	
Is each platform treated differently (not reposted blindly)?	
Is cadence strategic — not reactive?	
Total Score	

Function 3 — Attribution (Revenue Clarity)

Can you answer in 30 seconds:	Score
% of applications from YouTube?	
Which video drove the most qualified leads?	
Which is still converting 6+ months later?	
Are all CTAs tracked with structured UTMs?	
Total Score	

Function 4 — Visual Authority (Design Consistency)

Design Consistency	Score
Does your brand look distinct from competitors?	
Do thumbnails, slides, carousels, emails feel unified?	
Would someone recognize your content without your face on it?	
Total Score	

Function 5 — Psychological Messaging (Language Precision)

Language Precision	Score
--------------------	-------

Are captions written from real sales call language?	
Do prospects say “this was written for me”?	
Are you mining surveys and objections — or writing from intuition?	
Total Score	

Function 6 — Systems & Leverage (Intellectual Capital Infrastructure)

Intellectual Capital Infrastructure	Score
Is all past content indexed and retrievable?	
Can your team resurface past frameworks instantly?	
Are Looms, calls, and coaching sessions archived for reuse?	
Do you have AI or structured systems leveraging past IP?	
Total Score	

Your Total Score

Function	Score
Function 1 — CEO of Video	___ / 2
Function 2 — Distribution	___ / 2
Function 3 — Attribution	___ / 2
Function 4 — Visual Authority	___ / 2
Function 5 — Psychological Messaging	___ / 2
Function 6 — Systems & Leverage	___ / 2
Total	___ / 12

Bottleneck Isolation

Lowest-scoring function: _____

This is your structural bottleneck.

Not your discipline. Not your creativity. Not your consistency.

The bottleneck is ownership, and right now that ownership sits with you.

Calculate the real cost:

Hours per week you personally spend on this function:	
Estimated applications lost per month because this is underbuilt:	
If this constraint disappeared in 90 days, realistic revenue target:	\$___/month

In one sentence — what would change if this bottleneck was solved?

Leverage Stage Check

Check the stage that best describes where you are right now:

Stage	What This Looks Like
Stage 1: Creator Operator	You are the brand and the entire team. Everything runs through you.
Stage 2: Delegator Without Ownership	You have contractors but no accountable function owners.
Stage 3: Early Media Company	Functions exist, but systems are fragile. Ownership is inconsistent.
Stage 4: Compounding Infrastructure	Ownership, attribution, leverage, and indexing are all structured.

Current Stage: ____

Target Stage in 12 Months: ____

The Belief You Need to Drop

Which of these are you telling yourself right now?

- ☐ “No one can do this as well as I can.”
- ☐ “I can’t afford to hire for this yet.”
- ☐ “My content isn’t big enough to justify the infrastructure.”
- ☐ “I’ll systemize once I hit \$200K/month.”

I told myself all four of these. Every one of them cost me months.

Write the one belief you need to drop to move forward:

Your bottleneck is now visible. The question is whether you fix it this year.

Your Next Step:

Bring this completed evaluation to a Founder OS strategy call.

On that call we will:

- Pressure test your bottleneck
- Quantify its real revenue cost
- Map the structural fix
- Determine whether Founder OS infrastructure fits your stage

This evaluation is not the solution.

It is clarity.

And clarity is what allows leverage to be built correctly.

The best Founder program out there

Founder OS+ is absolutely life changing. The program helped us transformed our \$500 digital product into a thriving agency.

Initially, we were selling European visa assistance as a basic digital product. After joining the program, our Founder Success Manager Barrett helped us completely reimagine our business model.

Within 30 days, we:

- Got featured in Forbes
- Booked 30+ sales calls
- Had our first \$20K day
- Scaled our offer to \$5K-\$15K
- Hired a CRO with a complete sales team
- And we're just getting started

The program provided exactly what we needed - expert guidance, weekly accountability, and a supportive community of other founders. What impressed us most was how quickly everything came together. The frameworks and curriculum helped us see opportunities we were missing, and the implementation support ensured we actually took action.

If you're looking to scale your business and join a community of serious entrepreneurs, Founder OS+ delivers. Best business investment we've made.

Date of experience: September 30, 2024

Harley Finkelstein

President, Shopify (\$130B company)

Matt is an absolute beast when it comes to audience and community growth. He goes above and beyond to help founders — you can tell he genuinely cares. Would highly recommend working with him.

Brett Adcock

Founder & CEO, Figure AI (\$40B company)

Matt is more than a successful entrepreneur. **He is a next-level systems thinker who is giving an entire generation of entrepreneurs the tools to succeed in business and life.** He doesn't accept that good business and good life should be mutually exclusive.

Alex Lieberman
